Speakers' Schedule

SVFIG Meeting
June 25, 2016
Fourth Saturday

Google+ Hangout

SVFIG will participate in a Google+ Hangout so that everyone can watch this month's meeting in real time or view it later. Questions and comments can either be posted on Google or emailed to the SVFIG email list. (Contact Kevin Appert if you would like to be subscribed to the SVFIG email list.)

Future Meeting Dates

SVFIG will meet on the fourth Saturday of each month in 2016 with the following exceptions:
      November (Forth Day) & December – Third Saturday.
      Any deviations from the posted meeting schedule will be announced.

Meetup RSVP

If you are planning to attend this month's meeting, please RSVP on Meetup.com. If not, there is no need to offer your regrets.

Notes for First-time Attendees

1) Print a Stanford map showing the meeting location, the [Peterson Building](#), so you can find it easily. If you get lost, call Kevin Appert at 650/678-0532

2) Browse the [additional meeting information](#).

3) Park in one of these suggested locations: along Santa Teresa Street, in the lot near the intersection of [Santa Teresa Street and Lomita Drive](#), or in any "A" or "C" designated areas. There is no need to feed the parking meters on the weekends. Do NOT park in places marked with 24/7 restrictions! Most other spots are okay on Saturdays. **When in doubt, read the signs!**

Meeting Schedule

10:00 --- PDP1 eForth - CH Ting
  "The compiler part of PDP1 eForth is now working. The PDP1 is interesting because it was the very first personal computer which honestly reflected the personality of its individual user."

11:30 --- Lunch
  We will enjoy lunch at the [Treehouse](#)

13:00 --- A Day at the Maker Faire - Dave Jaffe
  "I took a few photos to share with the group."

13:35 --- Fun with Frame Buffers - Brad Nelson
  Drawing to the display used to be as simple as writing to the right addresses in memory. Decades of "progress" have resulted in a considerably more baroque process. Brad will describe his quest to get back to a simple interface when drawing in Forth.

14:20 --- Break

14:40 --- 4th.CoSy - Bob Armstrong
  "I'd be up for giving a little demo of the current state of [4th.CoSy](#). A remarkably small, but impure, change I could have made long ago has made editing use much simpler."

15:40 --- Adam Savage at the Maker Faire
  If there is time, we'll show [Adam Savage's "sermon" from the Maker Faire](#).

16:00 --- Clean Up and Adjourn

While we try to adhere to this time schedule, sometimes a presentation unexpectantly runs long or the presentation start times need to be reassigned. If you're desperate to see a particular presentation at a specific time, please alert us and we'll do our best to accommodate your needs.

This schedule may be reformatted or line-justified, but please transmit it verbatim or preferably provide a link to it.

No Newsgroup posts or other media distribution please!

This schedule document is produced by [Kevin Appert](), the SVFIG Program Chair and is distinct from the information posted on the SVFIG and FIG websites which are authored by the SVFIG Webmaster, Dave Jaffe. Your comments, corrections, and suggestions are always welcome.
