# Meeting Schedule

### 10:30 --- Forth Haiku Vision - Brad Nelson

Forth Haiku now has eyes! You can use your laptop or cell phone camera and a few simple words to transfigure a live video feed. Possibilities include fun-house mirrors, image filters, and interactive art. More information about this will be presented next month at Forth Day.

### 11:30 --- Lunch

We will enjoy lunch at the [Treehouse](#)

### 13:00 --- Introductions, Announcements, Rumors, and Gossip

### 13:20 --- Book of the Month - Andreas Wagner

[Forth on the Atari - Learning by using Forth](#)

**13:30 --- SL5: The Kestrel-2DX Filesystem - Samuel A. Falvo II**

“When raw block I/O is no longer sufficient, it's frequently desirable to be able to associate a name with one or more related blocks. SL5 is how I originally chose to accomplish this task with the Kestrel-2, and now it's back and better-than-ever with the Kestrel-2DX.”

**14:05 --- Break with T-Shirt Sales**

**14:30 --- 4pac: Forth Package Manager - Andreas Wagner**

Andreas proposed 4pac, a Forth package manager for Forth words with properties similar to the [Nix Package Manager](#).

**14:50 --- Random Access**

We'll flip through comp.lang.forth and browse to a few Forth websites.

**16:00 --- Clean Up and Adjourn**
